

Seals

By default, all of the customizable seals are made from an adhesive sticker that withstands wear and tear. Sticker paper only comes in one color paper.

As an alternative option, you may choose to go with a paper seal with no adhesive backing. (*Consider our Adhesive Dispenser and Tape from page 146 if you'd like to make them adhesive.*)

The sizes on this page are actual size. You may use any motif, monogram, or font for the design of the seal from pages 12-30.

Please note, all seals are printed digitally, therefore some lithograph colors may not be able to be matched entirely. Every effort is made to match indicated colors.
